Each day seems to be better and to draw more people. Today the streets were crowded, and a crowd estimated at 7,000 was here. The horse, mule and colt show held on Main street, in front of the court house, brought many farmers in, and the show was one of the most successful ever held in Maryville.

If the weather keeps the rest of the week like it has the past two days Maryville will have a record breaking crowd. All of the attractions and shows are better than have ever been here before, and the entertainment offered to the people is the best that the committee could find.

The judges for the horse, mule and colt shows were J. A. Kavanaugh, Graham; J. H. Keith, Bedford, and G. B. Dougherty. There were many entries in each class, and it was hard to tell which was the best. However, the decisions of the judges this morning met with the approval of the large crowd.

Notes.

A large crowd was out Tuesday night and all attractions were well patronized.

The Flying Bickets are the best yet, and no one is disappointed because the Flying Baldwins could not come, although they have been the favorite trapeze performers with Maryville people for a number of years.

The corn contest booth looks better than ever Wednesday, with the addition of fine corn entries, the nice big pumpkins, squashes, beets and apples.

The display booth by Frank Bolin, the architect and contractor, and the John Borrusch Manufacturing company, by the First National bank, is receiving many compliments. The display is made to represent a modern country residence and barn, with the step door lock silo made by the Borrusches. Mr. Bolin built the miniature residence, which is wired with electric lights. The lights were turned on Tuesday night, the tiny curtains were at the right height, making the scene very real and home-like. The grading and sodding for the perfectly kept lawn was done by W. A. Mozingo and the painting of the residence and barn and silo by B. W. Lemon.

The exhibition of touch ttypewriting given by Miss Mary O'Brien in the lobby of the Maryville Business college Monday and Tuesday nights gained the interested attention of many people, especially young people. Miss O'Brien was blindfolded and took the dictations of President Cook at an average of eighty and ninety words per minute. As each piece of work was completed it was pasted upon the window so that all could read her work. Every word was correctly spelled, and during her work of forty-five minutes Tuesday night she made but two omissions of letters. She works with perfect ease. Miss O'Brien is employed as stenographer and bookkeeper for the Moore Bros.' lightning rod factory, and is a graduate of the Business college.

The Marcel studio booth had some nice pictures out last night on plates behind which electric lights shone with fine effect. Some excellent pic-

Suit on Bond.

Suit was filed in the circuit court Tuesday afternoon by B. F. and C. V. Carson against A. M. Bright as surety for James Griffin. A suit in attachment was brought last year by Griffin against the Carsons over a jack, and their growing crops were attached. The suit was won by defendants when it came to trial in the circuit court, and these gentlemen demand that Griffin and Bright now pay the bond they were required to give when the attachment was issued, claiming that they were damaged and put to considerable expense in defending the suit.

Some Fine Hogs.

Fred P. Robinson has some of his big Poland-Chinas on exhibition this week and they are attracting much attention. The bunch is headed by Pawnee Pete, a male hog that weighs 950 pounds. They are handsome specimens and deserve the attention they receive.

THE WEDDING NEXT

HAPPY COUPLE WILL BE UNITED IN FRONT OF COURT HOUSE.

MUSIC BEFORE AND AFTER

Carriage With Six Ribbon Bearers Will Precede Bride and Groom and Minister.

Everybody and their friends are coming to the street fair Thursday. Thursday is the day of the wedding, the only wedding ever held in Maryville headed by a brass band and attended by ten thousand people and many other curiosities. The invitations are out, the printers have been working night and day for a week getting out the invitations and everybody is coming. The invitations are elaborate creations, just imported from Paris and made up according to the latest hobble-poke bonnet effect. They will be given to all who attend the wedding Thursday. Come early and avoid the rush.

You may think you know who the parties are who will be married, but you don't. That's a dead secret. Nobody but the county recorder knows and he is not certain. All we know is that they are nice folks and that there is a fine lot of presents waiting them with a swell dinner at the Linville hotel.

The wedding procession will start at the Linville hotel a few minutes before 2 o'clock, the hour for the wedding, headed by the Maryville band. The full corps of peace officers will make way for the procession to the band stand, in front of the court house yard, where the ceremony will be performed.

The first carriage will contain the ribbon bearers, Lela Maier, Pauline Wilson, Juanita Neal, Mildred Bellows, Lou Mutz and Gladys Morehouse.

In the second carriage will be the bride and groom, the ring bearer, Mary Carpenter, and the officiating minister, Rev. W. J. Parvin.

The Albany band will give a concert before the wedding hour, and at the close of the ceremony will play "Home, Sweet Home."

Everybody is coming to the wedding Thursday.

A three million dollar shortage has been discovered in the navy department at Washington and the president has been away only three weeks.

Steel trust stock fell off $3.25 a share in the market last week. When it went up a few points some time ago it was pointed out by our esteemed contemporary, the Tribune, as one of the desirable results of the defeat of reciprocity in Canada. Is this later reaction also a result of the failure of reciprocity or is the Tribune merely an unsafe diagnostician.

The report that a considerable shortage has been created by one of the clerks in the St. Louis postoffice calls to mind the fact that no one has yet been informed what became of the $61,000 that disappeared from the subtreasury during the time that the Hon. Thomas J. Akins presided over its destinies. The bill introduced in congress to relieve Mr. Akins of the annoying responsibility as head of the subtreasury was never passed, but Mr. Akins was promoted by the president to be postmaster of the city of St. Louis. With this later discrepancy under his supervision he ought to be in line for a place in the cabinet.

Mrs. John Miller received this week $1,000 insurance carried by her late husband in the Knight of Columbus Insurance company.

Mrs. Walter Horton of Kansas City arrived Tuesday night to visit her father, Dr. Frank Zenders.

Miss Rosa Hayzlett and Mr. Lee Wright of Graham were street fair visitors Tuesday.

See J. H. Harvey's advertisement of Chester White hogs in another column of this paper.

Mrs. John Kane went to St. Joseph Wednesday morning for a brief visit with friends.

Mr. and Mrs. Frank Woods of Seward, Neb., are visiting in the city with John Looker.

D. G. Hulburt of Wamego, Kan., is a new employee at the Orear-Henry drug store.

Warren L. Jones returned Tuesday night from a several weeks' absence in St. Louis.

Mrs. J. J. Davis of Burlington Junction was in Maryville Wednesday on business.

Former Hopkins Girl Weds.

Miss Frankie Thompson went to St. Joseph Wednesday morning to attend the wedding of her cousin, Miss Zattie Dougherty, to Mr. Bert DeWitt of Gilman City, Mo., which will occur Wednesday evening at 7:30 at the home of the bride's parents, Mr. and Mrs. Albert Dougherty, 1915 Mitchell avenue, St. Joseph, Mo. The bride and her parents are well known in this county, having lived near Hopkins for a number of years. Mr. and Mrs. DeWitt will accompany Miss Thompson to Maryville for a few days' visit with her and her mother, Mrs. Jennie Thompson. After visiting here they will go to Hopkins for a visit with friends before they go to Gilman City, where they will make their home on a farm near there that has been prepared for their occupancy.

Birthday Party.

A company of relatives and friends gathered at the home of Mr. and Mrs. Harry Martin of the Harmony neighborhood on Friday, October 6th, in honor of Mr. Martin's forty-third birthday, also to enjoy with them the luxuries of their first day in the handsome, modern home which they have just completed. Mr. Martin was taken quite by surprise, but was none the less the hospitable host, and a most enjoyable time was had by all. After viewing the house (which impressed the writer that the farmer is coming into his own, as the home is equipped with water, bath and plumbed for lights) the time was spent in visiting until dinner was served—the bountifulness of which evidenced prosperity as well as expert culinary art. After a most pleasant day and voting Mr. and Mrs. Martin a long and happy life in their new home, the company returned to their homes. Below is a list of those present:

Mr. and Mrs. H. Martin, Rev. and Mrs. C. R. Green, M. and Mrs. C. E. STREET-FAIR TIME.

(By J. Arthur Wray.)

The street-fair time has come once more
With waving white and red galore,
The street-fair microbe's in the air.
Bunting and booths surround the square,
And far and near and up and down,
The dazzling colors flood the town,
While myriad lamps their power display
To change the night to glorious day.
The city pours her anxious throng.
A jolly crowd, the streets along.
And neighb'ring towns enjoy their fill
Of merriment at Maryville.
The country folks in ample loads,
Now fill for miles, the townward roads;
In happy rivalry, they seek
To make the most of street-fair week.
Our welcome guests of honor, they
Shall share our autumn holiday.
The aged one, with snowy locks,
Who totters, trembling as he walks,
The sober man, the quiet dame,
The maid, the youth who dreams of fame,
The racing, romping girls and boys,
Empty of cares, chuck full of joys,
The prattling child with chubby cheek,
All, wild with joy of street-fair week.
Town, country, be they rich or poor,
For each a happy week's in store.

tures of the automobile parade were shown, and of those winning the prize, which were finished and out for sale in one hour and a half after the parade. They are certainly good.

The miniature train in motion in Price & McNeal's furniture store windows is the result of the work of Albert Craig and Clun Price, who are especially interested in electrical work. The depot, track and telegraph poles were made by Roy Gearhart. A little electric motor does vigorous work down under the platform, and the work of the train and the lights at the depot and along the train's route are so real one can almost smell the smoke.

Everybody is coming to the wedding Thursday. Everybody is guessing who the bride and groom may be. But nobody knows but the bride and her folks and the groom and Mr. F. R. Marcel and one other man in Maryville. Mr. Marcel of the street fair committee says it shall remain a profound secret so far as he and the contracting parties are concerned, and no one shall know before the wedding who the bride and groom are, unless that one other man should take a notion to tell. Lots of people think they know who the bride will be, but they don't.

Don't miss the wrestling match at Holt's hall, on the east side of the square, Wednesday and Thursday, at 3 o'clock p. m. and 8:30 p. m. The match will be between G. A. Taylor, champion of Iowa and Nebraska, and Francis O'Connor, the champion of the Dakotas.

FATAL DYNAMITE ACCIDENT

EXPLOSION KILLS TWO AT NEW UNION DEPOT SITE.

Bodies Hurled in Air, One Lands 250 Feet Away—Several Others Injured.

Kansas City, Oct. 11.—Spectators saw Edward Dunhoa and Joseph Berg, employes of the Callahan Construction company, contractors, tamping 30 pounds of dynamite into the ground on the Union Station site, preliminary to a blast. A moment later there was a terrific noise at the point where the men were working. One hundred other workers saw the bodies of the two workmen tossed 150 feet in the air in the midst of tons of earth and stone. The dynamite had exploded by accident from an unknown cause.

One body was hurled to the west and the other to the southeast. The body of Berg was thrown over a steam shovel just west of the explosion and came to earth 250 feet away. His body was so torn that it could not be recognized. The body of Dunhoa was driven 150 feet. Both probably died before their bodies reached the earth.

Joseuh Haas, foreman, and A. Waltz were tamping dynamite in a hole 15 feet south of Donhoa and Berg when the explosion came. Both were thrown to the earth, and stones, some as large as they, rained about them.

No one can give a definite explanation of the accident. One reasonable explanation was given. That is that the dynamite sticks were "planted" in what is known as a hot hole; the explosives were put too soon in a hole, which a few minutes before had been blown with powder to make it larger. In such cases the ground is hot and dynamite easily explodes in it. After such a process it is usual to wait from one to two hours for the ground to cool before the dynamite sticks are put in.

Dr. D. R. Russell, surgeon from the Walnut Street police station, attended the injured. J. E. Trogden, assistant coroner, viewed the bodies of the dead men and ordered them sent to the undertaking rooms of J. W. Wagner. An inquest will be held there.

TRAMP BURNED IN POWDER MILL

Lit a Match While Seeking Place to Sleep and Set Off Tons of Explosive.

Kansas City, Oct. 11.—Seeking a place to sleep, a tramp entered a frame building containing about three tons of loose black powder at the Excelsior Powder Mills at Holmes Park, near Dodson and ignorant of his danger, struck a match which act was followed by a terrific explosion.

The pressroom, the building in which the explosion occurred, was a mass of flames immediately, and the chargehouse, a sheetiron building about 40 feet to the north caught fire and was destroyed. It contained sodium charcoal in sacks and a quantity of sulphur. The tramp was burned severely about the body. As he was being taken to a hospital in an ambulance, he died on the way.

TOPEKA BALLOON RUNS AWAY

With Four in Basket, Gas Bag Broke Loose, Damaging a House and Sailed North.

Topeka, Oct. 11.—The balloon Topeka II was damaged in an ascention here while W. K. Leighty, E. W. Bendict, A. W. Whitford and James Johnson, a negro, were in the basket. A high wind was blowing and just as the balloon rose a gust of wind struck it sending the basket into a tree. It then crashed into a house. The trag ropes and four sacks of sand were torn loose and the basket ripped open. The crowd ran to catch the balloon, but it suddenly rose and sailed north.

The men signaled that none was injured.

The bag landed three hours later near Valley Falls, 25 miles northeast of Topeka.

ODD FELLOWS CONVENTION

FIVE THOUSAND DELEGATES IN ATTENDANCE.

Kansas City, Kan., Opens Homes to Visiting Members of Fraternal Order.

Kansas City, Oct. 11.—This place is in the hands of the Independent Order of Odd Fellows this week. With the city's streets decorated more profusely than ever before and welcome signs all over the city, the visitors have accepted the temporary possession.

Three headquarters have been established and all were crowded with visitors clamoring for accommodations and the reception committee was busy assigning them to the homes of citizens. On Minnesota avenue the uniformed drill teams were marching, under officers in dress uniform.

The number of visitors is estimated variously between 5,000 and 12,000. J. J. Burgar, chairman of the grand lodge committee said hundreds of Odd Fellows from other states were taking advantage of the opportunity to attend the stock show and the convention on the same trip. Mr. Burgar estimated the registered delegates at 5,000 in number and said probably 3,000 more would arrive before the convention closed.

The program includes competitive drills of the Kansas teams and a review of the militant forces at the headquarters.

A parade will be given in which 5,000 persons are expected to march.

At night the Ladies of Rebekah will hold a reception for the visitors. Degrees will be conferred at the I. O. O. F. hall. That meeting will be open to the public.

Thursday will be given over to business except for a motor car ride over the two cities. The convention will close Thursday night with the installation of officers.

TO REMOVE OBSOLETE STATUTES

Kansas Laws May be Revised and Old, Forgotten or Useless Ones Eliminated.

Topeka, Oct. 11.—A movement has been started by the state officials to have the next legislature appoint a committee to codify and revise the Kansas laws. The Kansas statutes were codified in 1868 and nothing has been done to them since. The statutes now fill a book of some 3,000 pages, containing several hundred pages of obsolete laws.

"If a competent committee were named to codify the laws they could remove fully one-half the matter in the general statutes and also make it possible for a layman to find what he wants to know," Charles Sessions, secretary of state, said. "If you will look at the general statutes you will find that the legislature elects the state printer and it has been five years since that happened. The statutes also show that the mine inspector is appointed by the governor when, in fact, he is named by the miners. There are many other mistakes and I don't know how many obsolete and useless laws in the big book. No one except a lawyer dares undertake to tell what the law really is and lawyers are never sure even when they look."

M'NAMARA TRIAL IS COMMENCED

Secretary of Iron Workers and His Brother in Court at Last.

SIX MONTHS OF PREPARATION

Charged With Dynamiting Los Angeles Times Building, Causing 20 Deaths—Will be Great Legal Battle.

Los Angeles, Cal., Oct. 11.—With the way prepared by a preliminary examination of prospective jurors, Judge Walter Bordwell began today the hearing of the case against John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, and his brother, James Bryce McNamara. They are charged with wholesale murder by dynamiting, in connection with the destruction of the Los Angeles Times building at First street and Broadway on the morning of October 1, 1910, in which disaster 20 men lost their lives. The trial is being held in the new Hall of Records.

District Attorney Charles D. Fredericks, in charge of the prosecution, declares that the web of evidence against the two men is conclusive.

For almost six months the district attorney, assisted by agents of the William J. Burns detective agency, has been preparing for this trial. Almost a million dollars has been spent by the prosecution and 400 witnesses have been summoned to appear against the two McNamara brothers. Ortie E. McManigal, structural iron worker, former Spanish-American war veteran, and informer, has been in daily consultation with the district attorney for the last month. McManigal is a self-confessed dynamiter, and it is upon his testimony that a great portion of the state's case has been built. Today McManigal, who is held in jail here under grand jury indictment for dynamiting the Llewellyn iron works in this city, said he was prepared to testify, and that he would convince the jury that he was truthful.

Trial May Take Many Months.

No authoritative estimate has been given yet as to the number of months it will take for the jury to hear the prosecution and the defense. The work of selecting the jury has been estimated at two months, and upon this basis it is believed by some that it will take at least six months to hear the first case. Attorneys for the defense have made no announcement as to the number of witnesses they will call. It is generally believed, however, that about 200 will be summoned by them before the final arguments.

The legal batteries for the defense are being directed by Clarence Darrow, philosopher, labor leader and writer. Associated with him are Le Comte Davis, who has been prominent in almost every criminal case in southern California during the last ten years; Joseph Scott, former president of the chamber of commerce, prominent Catholic layman, president of the city board of education and known through the state for his oratory and ability as a pleader; and Job Harriman, Socialist candidate for mayor. Besides these lawyers a corps of detectives, under the direction of Attorney John L. Harrington of Chicago is assisting. Three weekly newspapers are being published in the interests of the McNamara brothers here. It is estimated that at least $1,000,000 has been spent by the defense in the complete preparation of their cases.

Line of Defense Not Yet Known.

No intimation has been given as to the line of defense which will be presented. Many rumors have it that Mr. Darrow and his associates will argue the case without calling a single witness. The most generally accepted theory is that the defense will admit a number of points in evidence which will be made by the prosecution, and that they will endeavor to present an explanation which will show that the entire case is a conspiracy to injure union labor. It has been openly charged that McManigal is an employe of the Burns detective agency, and that he was employed a number of years ago. This charge has been denied by Burns and every other officer interested in the prosecution's case.

Balloon Race Postponed.

Topeka, Oct. 11.—The inter-city balloon flight for Kansas City, St. Louis, Salt Lake and Topeka, scheduled for October 12 has been postponed one week. An effort is being made by the Western Aero club to get Hans Gericke, winner of the Gorden Bennett cup, to make a flight for distance at the same time. The inter-city race had to be postponed because of accidents to the pilots of the Kansas City and St. Louis balloons which will keep them from entering the race for a week at least.

Pellagra Near Chickasha.

Chickasha, Ok., Oct. 11.—A case of pellagra has been found in the country east of here. Mrs. Bettie Daniels was brought to this city and will be sent to one of the state institutions for treatment.

TURKS ATTEMPT TO RECOVER TRIPOLI

Italians Were Prepared and Turks Retreated Under Heavy Fire.

MAY SEIZE ITALIAN STEAMERS

Three Groups of Troops, in Fifty Transports Will Combine East of Malta For Landing.

Constantinople, Oct. 11.—At a cabinet council it was decided to close all Italian industrial financial and scholastic establishments in Turkey and to seize Italian steamers.

Tripoli, Oct. 11.—The Turks apparently do not intend to abandon Tripoli to the Italians without further determined resistance. For several days horsemen have been reconnoitering in the vicinity of the Italian outposts. Several times at night they have been discovered by the searchlights of the warships, and then shells drove them back into the hills.

About 3,000 Turkish troops with field guns were discovered advancing in two columns with the evident intention of recapturing the town. A large body of natives marched with the troops and presented a formidable array. The Italian commander, however, had an intimation that such an attempt probably would be made and his men were prepared.

The Italian guns were well placed, and the Turks were met with a heavy artillery and rifle fire, to which they replied with equal energy. It was moonlight and the fleet turned the searchlights on the contending forces.

When the engagement was at its height the battleships and cruisers joined in with the smaller batteries, directing the shells to cover the Italian front and flank.

For more than an hour the firing on shore was continuous, but about 2 o'clock it slackened and the volley ceased. The Turks retired, but in good order, although it is reported that they suffered heavy losses.

Another body of Turks tried to turn the Italians' eastern flank, but without success. The Italian casualties were slight. The fleet pursued the retreating Turks with a heavy shell fire until 6 o'clock in the morning.

Rome, via frontier, Oct. 11.—The greater part of the Italian army expedition is now on the way to Tripoli. A big contingent, comprising the largest part of the total force, sailed from Naples and another fleet of transports left Taronto. More troops will depart from Agosta. These three groups will assemble as one east of Malta. There are about 50 transports and 40,000 troops.

The landing of a whole army corps in Tripoli is looked on as one of the most difficult operations of the war, despite the fact that little fear of an attack by the enemy is entertained.

Central Branch Orders a Cut.

Atchison, Kan., Oct. 11.—Failure of the crops along the Central Branch is the direct cause of a retrenchment order at the Central Branch shops. Fewer men are now at work than at any time in many years. The employes in the car repairing department are the only ones who are not affected by the retrenchment order.

Hunnewell Case to Lindsay.

Topeka, Oct. 11.—Judge Frank Lindsay of Topeka has been named as the representative of the attorney general in the ouster suit against the Hunneweli councilmen. The supreme court ordered that all the evidence in the case should be taken by deposition and the case must be ready for trial November 9.

State Rate Cases Go Over.

Washington, Oct. 11.—By its own initiative, the supreme court of the United States re-assigned all the state railroad rate cases involving conflicts between state and interstate rates for hearing as one case, on January 8, next. This affects cases from Minnesota, Kentucky, West Virginia, Missouri and Oregon.

Rubber Heels Caused Killing.

St. Joseph, Mo., Oct. 11.—Following a dispute as to whether rubber heels could be bought for 25 cents or for 40 cents, John Davis shot and killed another man by the same name. They were not related. The victim was shot in the back. Witnesses say he was reaching for a knife at the time. The slayer escaped.

Railroads Were Fined.

Leavenworth, Kan., Oct. 11.—In the United States district court, just convened here, The Missouri Pacific and Santa Fe railroads pleaded guilty to permitting live stock to stand in cars more than 24 hours. The roads were fined $100 on each count.

Old Fort Sill Abandoned.

Lawton, Ok., Oct. 11.—The frontier post at Fort Sill was deserted of troops when the fifth field artillery moved into the new Fort Sill. The old fort has been turned into a school of fire under Capt. Dan T. Moore.

Each day seems to be better and to draw more people. Today the streets were crowded, and a crowd estimated at 7,000 was here. The horse, mule and colt show held on Main street, in front of the court house, brought many farmers in, and the show was one of the most successful ever held in Maryville.

If the weather keeps the rest of the week like it has the past two days Maryville will have a record breaking crowd. All of the attractions and shows are better than have ever been here before, and the entertainment offered to the people is the best that the committee could find.

The judges for the horse, mule and colt shows were J. A. Kavanaugh, Graham; J. H. Keith, Bedford, and G. B. Dougherty. There were many entries in each class, and it was hard to tell which was the best. However, the decisions of the judges this morning met with the approval of the large crowd.

An individual colt show was made by J. F. Dowden, who has five fine colts. J. F. Roelofson has also his colts on exhibition.

Notes.

A large crowd was out Tuesday night and all attractions were well patronized.

The Flying Bickets are the best yet, and no one is disappointed because the Flying Baldwins could not come, although they have been the favorite trapeze performers with Maryville people for a number of years.

The corn contest booth looks better than ever Wednesday, with the addition of fine corn entries, the nice big pumpkins, squashes, beets and apples.

The display booth by Frank Bolin, the architect and contractor, and the John Borrusch Manufacturing company, by the First National bank, is receiving many compliments. The display is made to represent a modern country residence and barn, with the step door lock silo made by the Borrusches. Mr. Bolin built the miniature residence, which is wired with electric lights. The lights were turned on Tuesday night, the tiny curtains were at the right height, making the scene very real and home-like. The grading and sodding for the perfectly kept lawn was done by W. A. Mozingo and the painting of the residence and barn and silo by B. W. Lemon.

The exhibition of touch ttypewriting given by Miss Mary O'Brien in the lobby of the Maryville Business college Monday and Tuesday nights gained the interested attention of many people, especially young people. Miss O'Brien was blindfolded and took the dictations of President Cook at an average of eighty and ninety words per minute. As each piece of work was completed it was pasted upon the window so that all could read her work. Every word was correctly spelled, and during her work of forty-five minutes Tuesday night she made but two omissions of letters. She works with perfect ease. Miss O'Brien is employed as stenographer and bookkeeper for the Moore Bros.' lightning rod factory, and is a graduate of the Business college.

The Marcel studio booth had some nice pictures out last night on plates behind which electric lights shone with fine effect. Some excellent pic-

Suit on Bond.

Suit was filed in the circuit court Tuesday afternoon by B. F. and C. V. Carson against A. M. Bright as surety for James Griffin. A suit in attachment was brought last year by Griffin against the Carsons over a jack, and their growing crops were attached. The suit was won by defendants when it came to trial in the circuit court, and these gentlemen demand that Griffin and Bright now pay the bond they were required to give when the attachment was issued, claiming that they were damaged and put to considerable expense in defending the suit.

Some Fine Hogs.

Fred P. Robinson has some of his big Poland-Chinas on exhibition this week and they are attracting much attention. The bunch is headed by Pawnee Pete, a male hog that weighs 950 pounds. They are handsome specimens and deserve the attention they receive.

There are nearly a thousand entries in the corn contest and the best show of the kind ever held in Missouri is anticipated.

The Dodgers defeated the Athletics last night in the closest contest ever witnessed in the Normal gymnasium. Seymour, the main strength of the Dodgers, made a sensational goal and won the game. The score was 22 to 19. This is the second consecutive tie game in which the Athletics have participated, and they have lost both. The line-up:

THE WEDDING NEXT

HAPPY COUPLE WILL BE UNITED IN FRONT OF COURT HOUSE.

MUSIC BEFORE AND AFTER

Carriage With Six Ribbon Bearers Will Precede Bride and Groom and Minister.

Everybody and their friends are coming to the street fair Thursday. Thursday is the day of the wedding, the only wedding ever held in Maryville headed by a brass band and attended by ten thousand people and many other curiosities. The invitations are out, the printers have been working night and day for a week getting out the invitations and everybody is coming. The invitations are elaborate creations, just imported from Paris and made up according to the latest hobble-poke bonnet effect. They will be given to all who attend the wedding Thursday. Come early and avoid the rush.

You may think you know who the parties are who will be married, but you don't. That's a dead secret. Nobody but the county recorder knows and he is not certain. All we know is that they are nice folks and that there is a fine lot of presents waiting them with a swell dinner at the Linville hotel.

The wedding procession will start at the Linville hotel a few minutes before 2 o'clock, the hour for the wedding, headed by the Maryville band. The full corps of peace officers will make way for the procession to the band stand, in front of the court house yard, where the ceremony will be performed.

The first carriage will contain the ribbon bearers, Lela Maier, Pauline Wilson, Juanita Neal, Mildred Bellows, Lou Mutz and Gladys Morehouse.

In the second carriage will be the bride and groom, the ring bearer, Mary Carpenter, and the officiating minister, Rev. W. J. Parvin.

The Albany band will give a concert before the wedding hour, and at the close of the ceremony will play "Home, Sweet Home."

Recorder J. Arthur Wray issued marriage licenses to the following parties Wednesday: W. B. E. Johnson of Clearmont and Miss Dame Coleman of Hopkins, Charles Draper and Miss Charlotte E. Ackerly, both of Blanchard; James Reece and Miss Merl Smith, both of Skidmore.

Mrs. A. Ramey of Arkoe attended the street fair Tuesday and was the guest of her daughter, Miss Ruth Ramey, a State Normal student.

Everybody is coming to the wedding Thursday.

A three million dollar shortage has been discovered in the navy department at Washington and the president has been away only three weeks.

Steel trust stock fell off $3.25 a share in the market last week. When it went up a few points some time ago it was pointed out by our esteemed contemporary, the Tribune, as one of the desirable results of the defeat of reciprocity in Canada. Is this later reaction also a result of the failure of reciprocity or is the Tribune merely an unsafe diagnostician.

The report that a considerable shortage has been created by one of the clerks in the St. Louis postoffice calls to mind the fact that no one has yet been informed what became of the $61,000 that disappeared from the subtreasury during the time that the Hon. Thomas J. Akins presided over its destinies. The bill introduced in congress to relieve Mr. Akins of the annoying responsibility as head of the subtreasury was never passed, but Mr. Akins was promoted by the president to be postmaster of the city of St. Louis. With this later discrepancy under his supervision he ought to be in line for a place in the cabinet.

Mrs. John Miller received this week $1,000 insurance carried by her late husband in the Knight of Columbus Insurance company.

Mrs. Walter Horton of Kansas City arrived Tuesday night to visit her father, Dr. Frank Zenders.

Miss Rosa Hayzlett and Mr. Lee Wright of Graham were street fair visitors Tuesday.

See J. H. Harvey's advertisement of Chester White hogs in another column of this paper.

Mrs. John Kane went to St. Joseph Wednesday morning for a brief visit with friends.

Mr. and Mrs. Frank Woods of Seward, Neb., are visiting in the city with John Looker.

D. G. Hulburt of Wamego, Kan., is a new employee at the Orear-Henry drug store.

Warren L. Jones returned Tuesday night from a several weeks' absence in St. Louis.

Mrs. J. J. Davis of Burlington Junction was in Maryville Wednesday on business.

His Own Medicine.

The druggist had died and his spirit appeared before the golden gate.

Former Hopkins Girl Weds.

Miss Frankie Thompson went to St. Joseph Wednesday morning to attend the wedding of her cousin, Miss Zattie Dougherty, to Mr. Bert DeWitt of Gilman City, Mo., which will occur Wednesday evening at 7:30 at the home of the bride's parents, Mr. and Mrs. Albert Dougherty, 1915 Mitchell avenue, St. Joseph, Mo. The bride and her parents are well known in this county, having lived near Hopkins for a number of years. Mr. and Mrs. DeWitt will accompany Miss Thompson to Maryville for a few days' visit with her and her mother, Mrs. Jennie Thompson. After visiting here they will go to Hopkins for a visit with friends before they go to Gilman City, where they will make their home on a farm near there that has been prepared for their occupancy.

Birthday Party.

A company of relatives and friends gathered at the home of Mr. and Mrs. Harry Martin of the Harmony neighborhood on Friday, October 6th, in honor of Mr. Martin's forty-third birthday, also to enjoy with them the luxuries of their first day in the handsome, modern home which they have just completed. Mr. Martin was taken quite by surprise, but was none the less the hospitable host, and a most enjoyable time was had by all. After viewing the house (which impressed the writer that the farmer is coming into his own, as the home is equipped with water, bath and plumbed for lights) the time was spent in visiting until dinner was served—the bountifulness of which evidenced prosperity as well as expert culinary art. After a most pleasant day and voting Mr. and Mrs. Martin a long and happy life in their new home, the company returned to their homes. Below is a list of those present:

Mr. and Mrs. H. Martin, Rev. and Mrs. C. R. Green, M. and Mrs. C. E. (By J. Arthur Wray.)

The street-fair time has come once more
With waving white and red galore,
The street-fair microbe's in the air.
Bunting and booths surround the square,
And far and near and up and down,
The dazzling colors flood the town,
While myriad lamps their power display
To change the night to glorious day.
The city pours her anxious throng,
A jolly crowd, the streets along.
And neighb'ring towns enjoy their fill
Of merriment at Maryville.
The country folks in ample loads,
Now fill for miles, the townward roads;
In happy rivalry, they seek
To make the most of street-fair week.
Our welcome guests of honor, they
Shall share our autumn holiday,
The aged one, with snowy locks,
Who totters, trembling as he walks,
The sober man, the quiet dame,
The maid, the youth who dreams of fame,
The racing, romping girls and boys,
Empty of cares, chuck full of joys,
The prattling child with chubby cheek,
All, wild with joy of street-fair week.
Town, country, be they rich or poor,
For each a happy week's in store.

Went to Kansas City.

Mr. and Mrs. A. I. Campbell went to Kansas City Wednesday morning to attend the horse show at the American Royal stock show.

CROWDS INCREASING

(Continued from page 1.)

tures of the automobile parade were shown, and of those winning the prize, which were finished and out for sale in one hour and a half after the parade. They are certainly good.

The miniature train in motion in Price & McNeal's furniture store windows is the result of the work of Albert Craig and Clun Price, who are especially interested in electrical work. The depot, track and telegraph poles were made by Roy Gearhart. A little electric motor does vigorous work down under the platform, and the work of the train and the lights at the depot and along the train's route are so real one can almost smell the smoke.

Everybody is coming to the wedding Thursday. Everybody is guessing who the bride and groom may be. But nobody knows but the bride and her folks and the groom and Mr. F. R. Marcel and one other man in Maryville. Mr. Marcel of the street fair committee says it shall remain a profound secret so far as he and the contracting parties are concerned, and no one shall know before the wedding who the bride and groom are, unless that one other man should take a notion to tell. Lots of people think they know who the bride will be, but they don't.

Don't miss the wrestling match at Holt's hall, on the east side of the square, Wednesday and Thursday, at 3 o'clock p. m. and 8:30 p. m. The match will be between G. A. Taylor, champion of Iowa and Nebraska, and Francis O'Connor, the champion of the Dakotas.

FATAL DYNAMITE ACCIDENT

EXPLOSION KILLS TWO AT NEW UNION DEPOT SITE.

Bodies Hurled in Air, One Lands 250 Feet Away—Several Others Injured.

Kansas City, Oct. 11.—Spectators saw Edward Dunhoa and Joseph Berg, employes of the Callahan Construction company, contractors, tamping 30 pounds of dynamite into the ground on the Union Station site, preliminary to a blast. A moment later there was a terrific noise at the point where the men were working. One hundred other workers saw the bodies of the two workmen tossed 150 feet in the air in the midst of tons of earth and stone. The dynamite had exploded by accident from an unknown cause.

One body was hurled to the west and the other to the southeast. The body of Berg was thrown over a steam shovel just west of the explosion and came to earth 250 feet away. His body was so torn that it could not be recognized. The body of Dunhoa was driven 150 feet. Both probably died before their bodies reached the earth.

Joseuh Haas, foreman, and A. Waltz were tamping dynamite in a hole 15 feet south of Donhoa and Berg when the explosion came. Both were thrown to the earth, and stones, some as large as they, rained about them.

No one can give a definite explanation of the accident. One reasonable explanation was given. That is that the dynamite sticks were "planted" in what is known as a hot hole; the explosives were put too soon in a hole, which a few minutes before had been blown with powder to make it larger. In such cases the ground is hot and dynamite easily explodes in it. After such a process it is usual to wait from one to two hours for the ground to cool before the dynamite sticks are put in.

Dr. D. R. Russell, surgeon from the Walnut Street police station, attended the injured. J. E. Trogden, assistant coroner, viewed the bodies of the dead men and ordered them sent to the undertaking rooms of J. W. Wagner. An inquest will be held there.

TRAMP BURNED IN POWDER MILL

Lit a Match While Seeking Place to Sleep and Set Off Tons of Explosive.

Kansas City, Oct. 11.—Seeking a place to sleep, a tramp entered a frame building containing about three tons of loose black powder at the Excelsior Powder Mills at Holmes Park, near Dodson and ignorant of his danger, struck a match which act was followed by a terrific explosion.

The pressroom, the building in which the explosion occurred, was a mass of flames immediately, and the chargehouse, a sheetiron building about 40 feet to the north caught fire and was destroyed. It contained sodium charcoal in sacks and a quantity of sulphur. The tramp was burned severely about the body. As he was being taken to a hospital in an ambulance, he died on the way.

TOPEKA BALLOON RUNS AWAY

With Four in Basket, Gas Bag Broke Loose, Damaging a House and Sailed North.

Topeka, Oct. 11.—The balloon Topeka II was damaged in an ascention here while W. K. Leighty, E. W. Bendict, A. W. Whitford and James Johnson, a negro, were in the basket. A high wind was blowing and just as the balloon rose a gust of wind struck it sending the basket into a tree. It then crashed into a house. The drag ropes and four sacks of sand were torn loose and the basket ripped open. The crowd ran to catch the balloon, but it suddenly rose and sailed north.

The men signaled that none was injured.

The bag landed three hours later near Valley Falls, 25 miles northeast of Topeka.

ODD FELLOWS CONVENTION

FIVE THOUSAND DELEGATES IN ATTENDANCE.

Kansas City, Kan., Opens Homes to Visiting Members of Fraternal Order.

Kansas City, Oct. 11.—This place is in the hands of the Independent Order of Odd Fellows this week. With the city's streets decorated more profusely than ever before and welcome signs all over the city, the visitors have accepted the temporary possession.

Three headquarters have been established and all were crowded with visitors clamoring for accommodations and the reception committee was busy assigning them to the homes of citizens. On Minnesota avenue the uniformed drill teams were marching, under officers in dress uniform.

The number of visitors is estimated variously between 5,000 and 12,000. J. J. Burgar, chairman of the grand lodge committee said hundreds of Odd Fellows from other states were taking advantage of the opportunity to attend the stock show and the convention on the same trip. Mr. Burgar estimated the registered delegates at 5,000 in number and said probably 3,000 more would arrive before the convention closed.

The program includes competitive drills of the Kansas teams and a review of the militant forces at the headquarters.

A parade will be given in which 5,000 persons are expected to march.

At night the Ladies of Rebekah will hold a reception for the visitors. Degrees will be conferred at the I. O. O. F. hall. That meeting will be open to the public.

Thursday will be given over to business except for a motor car ride over the two cities. The convention will close Thursday night with the installation of officers.

TO REMOVE OBSOLETE STATUTES

Kansas Laws May be Revised and Old, Forgotten or Useless Ones Eliminated.

Topeka, Oct. 11.—A movement has been started by the state officials to have the next legislature appoint a committee to codify and revise the Kansas laws. The Kansas statutes were codified in 1868 and nothing has been done to them since. The statutes now fill a book of some 3,000 pages, containing several hundred pages of obsolete laws.

"If a competent committee were named to codify the laws they could remove fully one-half the matter in the general statutes and also make it possible for a layman to find what he wants to know," Charles Sessions, secretary of state, said. "If you will look at the general statutes you will find that the legislature elects the state printer and it has been five years since that happened. The statutes also show that the mine inspector is appointed by the governor when, in fact, he is named by the miners. There are many other mistakes and I don't know how many obsolete and useless laws in the big book. No one except a lawyer dares undertake to tell what the law really is and lawyers are never sure even when they look."

M'NAMARA TRIAL IS COMMENCED

Secretary of Iron Workers and His Brother in Court at Last.

SIX MONTHS OF PREPARATION

Charged With Dynamiting Los Angeles Times Building, Causing 20 Deaths—Will be Great Legal Battle.

Los Angeles, Cal., Oct. 11.—With the way prepared by a preliminary examination of prospective jurors, Judge Walter Bordwell began today the hearing of the case against John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, and his brother, James Bryce McNamara. They are charged with wholesale murder by dynamiting, in connection with the destruction of the Los Angeles Times building at First street and Broadway on the morning of October 1, 1910, in which disaster 20 men lost their lives. The trial is being held in the new Hall of Records.

District Attorney Charles D. Fredericks, in charge of the prosecution, declares that the web of evidence against the two men is conclusive.

For almost six months the district attorney, assisted by agents of the William J. Burns detective agency, has been preparing for this trial. Almost a million dollars has been spent by the prosecution and 400 witnesses have been summoned to appear against the two McNamara brothers. Ortie E. McManigal, structural iron worker, former Spanish-American war veteran, and informer, has been in daily consultation with the district attorney for the last month. McManigal is a self-confessed dynamiter, and it is upon his testimony that a great portion of the state's case has been built. Today McManigal, who is held in jail here under grand jury indictment for dynamiting the Llewellyn iron works in this city, said he was prepared to testify, and that he would convince the jury that he was truthful.

Trial May Take Many Months.

No authoritative estimate has been given yet as to the number of months it will take for the jury to hear the prosecution and the defense. The work of selecting the jury has been estimated at two months, and upon this basis it is believed by some that it will take at least six months to hear the first case. Attorneys for the defense have made no announcement as to the number of witnesses they will call. It is generally believed, however, that about 200 will be summoned by them before the final arguments.

The legal batteries for the defense are being directed by Clarence Darrow, philosopher, labor leader and writer. Associated with him are Le Comte Davis, who has been prominent in almost every criminal case in southern California during the last ten years; Joseph Scott, former president of the chamber of commerce, prominent Catholic layman, president of the city board of education and known through the state for his oratory and ability as a pleader; and Job Harriman, Socialist candidate for mayor. Besides these lawyers a corps of detectives, under the direction of Attorney John L. Harrington of Chicago is assisting. Three weekly newspapers are being published in the interests of the McNamara brothers here. It is estimated that at least $1,000,000 has been spent by the defense in the complete preparation of their cases.

Line of Defense Not Yet Known.

No intimation has been given as to the line of defense which will be presented. Many rumors have it that Mr. Darrow and his associates will argue the case without calling a single witness. The most generally accepted theory is that the defense will admit a number of points in evidence which will be made by the prosecution, and that they will endeavor to present an explanation which will show that the entire case is a conspiracy to injure union labor. It has been openly charged that McManigal is an employe of the Burns detective agency, and that he was employed a number of years ago. This charge has been denied by Burns and every other officer interested in the prosecution's case.

Balloon Race Postponed.

Topeka, Oct. 11.—The inter-city balloon flight for Kansas City, St. Louis, Salt Lake and Topeka, scheduled for October 12 has been postponed one week. An effort is being made by the Western Aero club to get Hans Gericke, winner of the Gorden Bennett cup, to make a flight for distance at the same time. The inter-city race had to be postponed because of accidents to the pilots of the Kansas City and St. Louis balloons which will keep them from entering the race for a week at least.

Pellagra Near Chickasha.

Chickasha, Ok., Oct. 11.—A case of pellagra has been found in the country east of here. Mrs. Bettie Daniels was brought to this city and will be sent to one of the state institutions for treatment.

TURKS ATTEMPT TO RECOVER TRIPOLI

Italians Were Prepared and Turks Retreated Under Heavy Fire.

MAY SEIZE ITALIAN STEAMERS

Three Groups of Troops, in Fifty Transports Will Combine East of Malta For Landing.

Constantinople, Oct. 11.—At a cabinet council it was decided to close all Italian industrial financial and scholastic establishments in Turkey and to seize Italian steamers.

Tripoli, Oct. 11.—The Turks apparently do not intend to abandon Tripoli to the Italians without further determined resistance. For several days horsemen have been reconnoitering in the vicinity of the Italian outposts. Several times at night they have been discovered by the searchlights of the warships, and then shells drove them back into the hills.

About 3,000 Turkish troops with field guns were discovered advancing in two columns with the evident intention of recapturing the town. A large body of natives marched with the troops and presented a formidable array. The Italian commander, however, had an intimation that such an attempt probably would be made and his men were prepared.

The Italian guns were well placed, and the Turks were met with a heavy artillery and rifle fire, to which they replied with equal energy. It was moonlight and the fleet turned the searchlights on the contending forces.

When the engagement was at its height the battleships and cruisers joined in with the smaller batteries, directing the shells to cover the Italian front and flank.

For more than an hour the firing on shore was continuous, but about 2 o'clock it slackened and the volley ceased. The Turks retired, but in good order, although it is reported that they suffered heavy losses.

Another body of Turks tried to turn the Italians' eastern flank, but without success. The Italian casualties were slight. The fleet pursued the retreating Turks with a heavy shell fire until 6 o'clock in the morning.

Rome, via frontier, Oct. 11.—The greater part of the Italian army expedition is now on the way to Tripoli. A big contingent, comprising the largest part of the total force, sailed from Naples and another fleet of transports left Taronto. More troops will depart from Agosta. These three groups will assemble as one east of Malta. There are about 50 transports and 40,000 troops.

The landing of a whole army corps in Tripoli is looked on as one of the most difficult operations of the war, despite the fact that little fear of an attack by the enemy is entertained.

Central Branch Orders a Cut.

Atchison, Kan., Oct. 11.—Failure of the crops along the Central Branch is the direct cause of a retrenchment order at the Central Branch shops. Fewer men are now at work than at any time in many years. The employes in the car repairing department are the only ones who are not affected by the retrenchment order.

Hunnewell Case to Lindsay.

Topeka, Oct. 11.—Judge Frank Lindsay of Topeka has been named as the representative of the attorney general in the ouster suit against the Hunnewell councilmen. The supreme court ordered that all the evidence in the case should be taken by deposition and the case must be ready for trial November 9.

State Rate Cases Go Over.

Washington, Oct. 11.—By its own initiative, the supreme court of the United States re-assigned all the state railroad rate cases involving conflicts between state and interstate rates for hearing as one case, on January 8, next. This affects cases from Minnesota, Kentucky, West Virginia, Missouri and Oregon.

Rubber Heels Caused Killing.

St. Joseph, Mo., Oct. 11.—Following a dispute as to whether rubber heels could be bought for 25 cents or for 40 cents, John Davis shot and killed another man by the same name. They were not related. The victim was shot in the back. Witnesses say he was reaching for a knife at the time. The slayer escaped.

Railroads Were Fined.

Leavenworth, Kan., Oct. 11.—In the United States district court, just convened here, The Missouri Pacific and Santa Fe railroads pleaded guilty to permitting live stock to stand in cars more than 24 hours. The roads were fined $100 on each count.

Old Fort Sill Abandoned.

Lawton, Ok., Oct. 11.—The frontier post at Fort Sill was deserted of troops when the fifth field artillery moved into the new Fort Sill. The old fort has been turned into a school of fire under Capt. Dan T. Moore.
